How to Use This Catalog

Nearly everything that you need to know to have a successful student career is contained in this catalog. Locating the material will be easier if you become familiar with the college terminology. Once you have learned what the terms are, turn to the index at the back of the catalog. This will give you the page where the pertinent information can be found. For instance, if you want to find information on tuition, look up “Tuition,” “Financial Aid,” and “Scholarships” in the index and turn to those pages.

Course Descriptions

This catalog contains descriptions of each course offered at Northwest College. These listings include the course designator, number, title, and credit hours (in parentheses) for the course (see page 71 for more information). Course descriptions are followed by the number of hours spent in class lecture or labs. Some courses have prerequisites. A prerequisite is a specific requirement that must be fulfilled by the student before he/she will be allowed to enroll in that course.

Course Numbers

Course numbers generally signify the level of the course. For example, courses numbered below 1000 are below college level and are not accepted for degree requirements at NWC. Those numbered 1000+ are typically freshman courses, and those numbered 2000+ are typically sophomore courses.

Course Transfer

Northwest College courses should transfer to any accredited college, but specific course transferability depends upon many factors. As soon as possible, any student who intends to transfer to another institution should obtain a catalog of that institution and check its requirements. Then that student should match courses at Northwest to those at the transfer institution. Different majors accept different courses and some colleges and universities will accept the same NWC course for different purposes. See page 24. Talk with your academic advisor at Northwest if you have questions.

NOTE: Courses numbered below 1000 and courses listed on page 31 are not transferable.

Through a superior teaching, learning, and living environment, Northwest College will be a dynamic and distinguished educational leader that shapes a positive future for students and the many communities it serves.

History

The college opened in 1946 with nearly 100 full- and part-time students and three instructors who met in classrooms borrowed from the public school district. Initially called the University of Wyoming Northwest Center, it was established through an agreement between the University of Wyoming and Park County School District One. University support was discontinued in 1950. In 1953 the name changed to Northwest Community College, and in 1968, the college's tax base was expanded to include all of Park County. The name changed once more, to Northwest College, in 1989.

Today, about 77 full-time and about 80 part-time faculty teach just over 1,700 students (approximately 1,100 study full time) on a modern campus and in 7-10 Big Horn Basin communities. A stimulating residential campus and special learning opportunities such as field studies abroad and workforce development training provide rich and varied learning activities. Northwest prides itself on a commitment to excellence in all its endeavors.
